

the battery in the MessagePad 2000. Warning: If you remove the battery, always place the plastic end cap over the battery terminals. Disposing of the Battery Pack If you take care of the battery pack properly, you should be able to recharge the battery pack several hundred times. However, when you notice the battery pack doesn't hold a

The Newton battery functions much like a water tower that incorporates a turbine that generates power regardless of the direction of the water flow. There is always a diminishing return, but the energy stored can be turned on for instantaneous response to demand. Excellent design and will put pressure on battery companies to control costs!
