

Who is Nexus solar energy?

With a vast network of over 1150 dealers and a satisfied customer base exceeding 1 million, we've garnered trust across the industry. Nexus Solar Energy is looking for a diverse & robust network of channel partners who will help us deliver our solar solutions and products across India.

What is a nexus energy system?

The Nexus is a concept to link energy with other natural resources. A proper understanding of how energy systems operate requires a good understanding of energy (including mining), engineering, hydrology, economics, food science, geography, social science and climatology.

How can the nexus be used in energy modelling?

Further considerations of the Nexus in the context of energy modelling would enrich the modelling capacity and offer a basis for better policy advice. Coordination of work to enhance integration across multidisciplinary teams would enable to strengthen consistency of analysis across spatial scales.
