

Where is solar energy used in Niger?

Niamey and Zinder, located at lower latitudes, show less variability across the year, hence making them excellent locations for harnessing solar energy. There is a long history of solar energy use in Niger. This began in the mid-1960s when the Centre National d'Energie Solaire (National Solar Energy Centre; CNES) was established.

Who financed a solar power plant in Niger?

The European Union, the French Development Bank and the government of Niger co-financed the installation. A French consortium made up of Akuo and Sagecom has finished building a 30 MW solar power plant in Gorou Banda, Niger. The Niger government had initially planned the project to have a capacity of 50 MW.
