

How do I find a certified solar installer?

Certifying boards: You can find certified installers by checking with the North American Board of Certified Energy Practitioners. Your neighbors: If you have friends, family or neighbors who've had a recent solar panel installation, ask them about their experience with their installer.

Should I buy solar panels from a telemarketer or a door knocker?

Def legit Never buy anything from a door knocker, a telemarketer, or anyone selling inside another retail store. If you want solar then look up companies yourself and call the legit ones.

Is Zenith a good solar company?

It's a new company. The two owners worked previously for another solar company, Zenith that has bad reviews & negative customer experiences. After installing my panels, an engineer came and inspected the roof for structural integrity & that the panels were properly installed.

How do I find a legit solar company?

If you want solar then look up companies yourself and call the legit ones. Most out there are fake solar companies who really are just scammy finance companies that will sell you the lowest grade panels for the highest price with a bad 30 year loan to where they make all their money back in the first few years.
