GEN-I begins operating its second large solar power plant in North Macedonia. The GEN-I Group has put a second large solar power plant into operation in North Macedonia, this time near Kavadarci. With a total power of 12 MW, the plant will generate up to 15,500 MWh of carbon-free energy a year, thereby helping to decarbonise the energy system.

In North Macedonia, even more additional investments in solar power plants are planned. The WBIF already approved financing for an extension of the plant in Oslomej 2 and the construction of a new plant in Bitola for a ???

1 ? VCI Global (NASDAQ:VCIG) said on Thursday that it has signed a term sheet to acquire a solar farm with an estimated capacity of 1.14 megawatts, located in Novo Selo, North Macedonia.

1 ? North Macedonian power utility Elektrani na Severna Makedonija obtained a loan for the construction of solar power plant Bitola 2 and the expansion of its Bogdanci wind farm. It also received a donation for photovoltaic projects Bitola 1 and Oslomej 2.

This is a huge number for North Macedonia as the biggest solar plant at the moment is only 17MW, with the second biggest being 10MW. This has resulted in the total producing capacity increasing to 144.4 MW (out of which 99.2MW is solar). The rest of the new energy power plants are 11 small hydro-plants (with an installed capacity of 7.2MW

Shortly after Akuo Energy's photovoltaic project of up to 400 MW in ? tip was declared a strategic investment, the Government of North Macedonia gave the same status to two planned solar power plants in ???

The 10 MW facility was built at a former lignite mine belonging to the old thermal power plant of the same name in the municipality of Ki??evo in the western part of North Macedonia. Both the coal complex and the solar power unit belong to state-owned electricity utility Elektrani na Severna Makedonija (ESM), which already has one wind park

North Macedonia sets new records in renewable energy, especially for solar power plants. The upward trend of investment has further accelerated in 2023, comparing with the record-breaking and 270MW installed capacity. The regulatory body has also announced it is considering amendments to the regulations that would require new photovoltaic plant

# NORTH MACEDONIA SOLAR POWER FOR

1 ? Solar power capacity in North Macedonia is nearing 800 MW. North Macedonia is also the fastest in the region in solar power expansion. The country is nearing 800 MW, data from Ambari's presentation showed. It is roughly half of all PV capacity in the Western Balkans! Almost all new power generating units are photovoltaic systems.

This power plant was built in a record period of less than 4 months. On the occasion of the official opening of the power plant, present were the Prime Minister of the Republic of North Macedonia - Mr. Zoran Zaev, the Minister of Economy - Mr. Kreshnik Bekteshi and the Chairman of the Management Board of EVN Macedonia - Mr. Stefan Peter.
