

How will EDF power French Guiana?

It will be connected to French Guiana's electricity grid through EDF's substation in Saint-Laurent-du-Maroni. The facility will provide reliable and clean electricity to power up to 10,000 French Guiana households. It will meet half of the energy demand in Saint-Laurent-du-Maroni and the Mana commune of French Guiana.

When does HDF energy start construction of ceog (French Guiana)?

After successful financial close, HDF Energy starts construction of CEOG ( French Guiana ), the world's first baseload renewable energy power plant using hydrogen technology Bordeaux ( FRANCE ), September 30th, 2021.

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

How much daylight does French Guiana have?

French Guiana is situated in northern South America, close to the equator. It, therefore, boasts 12 hours of daylight throughout the year, which will allow the CEOG solar-cum-green hydrogen power project to operate consistently as a baseload facility all year round.

Who designed & build the Sinnamary biomass plant in French Guyana?

BOCCARD & BERKE are proud to be selected by VOLTALIA for the design & build of the process package of the Sinnamary biomass plant in French Guyana. The new biomass power plant, with a capacity of 10 MWe (40 MWth), is located near the Petit-Saut dam in Sinnamary, French Guyana.

Tullow Oil plc (Tullow) announces that the Zaedyus exploration well (GM-ES-1), offshore French Guiana, has made an oil discovery having encountered 72 metres of net oil pay in two turbidite fans. Results of drilling, wireline logs and samples of reservoir fluids show that the well has encountered good quality reservoir sands on prognosis. The objective [???
