

Who is Northvolt AB?

Northvolt AB is a Swedish battery developer and manufacturer, specialising in lithium-ion technology for electric vehicles. Founded in 2015 by two former Tesla executives, it commissioned its first manufacturing plant in Skellefteå, Sweden in 2021 and has announced plans for five others in Europe and North America.

What happened to Northvolt AB?

Sweden's Northvolt AB was Europe's best hope of rivaling the giant Chinese companies that make most of the world's electric vehicle power cells. It ran out of money after a series of operational blunders and filed for bankruptcy protection in November, giving its owners a temporary lifeline while they cast around for fresh funds and new partners.

Could Northvolt be a big EV battery company headquartered in Europe?

Northvolt has been their best shot at building a big, thriving EV battery business headquartered in Europe. Were the company to fail, ongoing progress in battery technology could make it even harder for another European company to attempt the same feat.

Where is Northvolt located?

The headquarters of Northvolt are in Stockholm. Its center for research and development is situated in Västerås, Sweden. Northvolt Ett (swedish: "one") is a gigafactory located in Skellefteå, northern Sweden, with a goal output of 60 GWh.

Where are Northvolt batteries made?

Pioneering a sustainable model for battery manufacturing, the company has received orders from several leading automotive companies. The company is currently delivering batteries from its first gigafactory, Northvolt Ett, in Skellefteå, Sweden and from its R&D and industrialization campus, Northvolt Labs, in Västerås, Sweden.

How will Europe respond to the Northvolt Saga?

People involved in the Northvolt saga said options were narrowing for Europe to address its dependence on China and other parts of Asia for the technology and materials that will be critical as the automotive industry transitions to electric vehicles.
