

Are Africa's Business and policy leaders deepening relationships with Norway?

In the African Union and broader arenas, Africa's business and policy leaders are deepening their relationships with Norway in particular.

Are Nordic countries more egalitarian than African countries?

According to Gini coefficient rankings, Nordic countries have created some of the most egalitarian societies in the world. African countries can adopt transferable lessons on building equality, and Nordic investments can share in the success of startups commercializing Africa's urgent human capital needs.

How much money is needed to bridge Africa's Energy Infrastructure Gap?

The African Development Bank estimates that \$60 billion-\$90 billion is needed annually to bridge Africa's energy infrastructure gap. Ideas for potential gap fillers are blended finance, evergreen funding, and syndicated impact investing.

Canada, Norway, Qatar, Saudi Arabia, and UAE are members of the forum along with the United States. POWER Africa brings together the collective resources of 12 U.S. Government agencies and 170 public and private sector partners to double access to electricity in sub-Saharan Africa. The initiative supports African nations' efforts to

Looking ahead, Norway's Africa strategy aligns with Agenda 2063, focusing on socio-economic transformation through climate partnerships, renewable energy, and sustainable agriculture. Initiatives in Tanzania and Kenya exemplify this commitment, aiming to empower local communities while driving economic growth.
