MSX-LiteTM modules, part of Solarex's MegamoduleTM series, are designed for applications requiring a combination of light weight, compactness, and ruggedness. Four models of MSX-Lite are available, the MSX-5 Lite, MSX-10 Lite, MSX-20 Lite and the MSX-30 Lite, delivering typical peak power 10, 20, and 30 watts respectively at Standard Test

This paper proposes a novel single sensor maximum power point tracking method for PV system composed of Solarex MSX-60W PV panel operating at variable atmospheric conditions and DC-DC boost

The is a midsize photovoltaic module in Solarex's Megamodule™ series, a product line which is the industry standard for reliability, durability and value. It is well-suited to applications requiring the ruggedness and other premium characteristics--such as the 20-year warranty--of Solarex's larger MSX modules, but needing 50 watts peak output.
