

What is the Oncor solar photovoltaic (PV) program?

The Oncor Solar Photovoltaic (PV) Program offers financial incentives for Oncor customers who install eligible distributed solar energy generating equipment.

Does Oncor pay a service provider for a solar photovoltaic system?

Through the program, Oncor pays incentives to service providers who market, sell/lease and install solar photovoltaic systems to Oncor commercial and residential customers. A service provider's participation in the program does not constitute Oncor's endorsement or approval of any company, product or service.

Does Oncor offer incentives for energy storage systems?

Oncor will continue this trend into the 2024 program year with the aim to follow the market direction and continuously evolve the program. Note, this does not mean there will be incentives offered for Energy Storage systems but rather, Energy Storage systems serve as a mandatory qualifier to obtain residential solar PV incentives.

What are Oncor's solar incentive programs?

Beginning 2024, Oncor's solar incentive programs are two separate programs: The photovoltaic standard offer program for residential solar projects and the Commercial Solar Option in the Commercial Standard Offer Program for commercial solar projects.

What is the 2024 Oncor solar incentive program?

Welcome to the 2024 Oncor Solar incentive program. The program offers financial incentives for the installation of eligible distributed solar energy generating equipment and is open to all eligible residential and commercial Oncor customers.

Does Oncor offer a solar investment tax credit?

Unlike the HEE program, which is available for renters, the solar PV program only applies for Oncor customers who own the home where they live. This benefit can be combined with the Solar Investment Tax Credit
