

What is Panama's Plan Energético Nacional?

The PEN(Plan Energético Nacional) 2015-2050 aims to drastically increase the use of renewable energy in Panama to 70% of the country's energy mix. Panama aims to be carbon neutral by 2050, partially by emphasizing forest restoration to absorb CO2 emissions.

What is Panama's energy supply?

This page is part of Global Energy Monitor's Latin America Energy Portal. Panama currently relies on imported oil for the majority of its total energy supply. In the electrical sector, hydro energy also plays a key role, accounting for 43.9% of installed capacity and 67.2% of total generation as of 2020.

How much power does Panama have?

Panama's installed electrical capacity has grown steadily over the last decade. As of 2020, the country had 4116 MW of installed capacity, relying on a mix of fossil fuels (44.2%), hydro power (43.9%), wind (6.6%) and solar (5.2%).

Who regulates the electricity sector in Panama?

The ASEP(Autoridad Nacional de los Servicios Públicos) is responsible for regulation of the electricity sector in Panama. The ASEP oversees all aspects of Panama's electrical sector. Panama does not have a national oil company. Naturgy is the leading energy distributor in Panama.

How much coal does Panama use?

As of 2016, Panama consumed 330,693 short tons of imported coal and ranked 86th in the world for coal consumption. In September 2021, the Panamanian energy minister announced a push towards clean energy with the notable pillar of ending coal use in power plants by 2023.

What percentage of Panamanians have reliable electricity?

While 94% of Panamanians have access to reliable electricity, rates of access in primarily indigenous areas are drastically different; in Comarca Ngäbe-Buglé, the percentage of households with reliable electricity drops to approximately 4%.

Panama's government says it will engage with First Quantum Minerals Ltd. in the coming months to discuss the environmental impact of its shuttered copper mine. Panama's new president, who took office earlier this month, has said that the mine may need to be temporarily reopened in order to responsibly prepare for a permanent closure.
