Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of ???

At Nexiom Ltd, we are experts in the installation of renewable energy on the Isle of Man, including solar photovoltaic panels (Solar PV), which can be used to power your home, leading to savings on your electricity bills and reducing your carbon footprint.

PANEL TENAGA SURYA ISLE OF MAN

Solar panel electricity systems, also known as photovoltaics (PV), capture the sun's energy using photovoltaic cells. The cells convert the sunlight into electricity, which can be used to run household appliances and lighting. These cells don't need direct sunlight to work ??? they can still generate some electricity on a cloudy day.

Isle of Man Approved Contractor MACCS (Manx Accredited Contractors Scheme) MCS (Microgeneration Certification Scheme) G83 (Domestic) & G59 (Commercial) RECC (Renewable Energy Consumer Code) Napit Part P (Competant Person Scheme) Trustmark (Government Endorsed Standards) Tesla Powerwall Certified Installer
