

Who is HomeGrid powered by?

HomeGrid is powered by Lithion, a global battery manufacturer. Lithion is a brand that specializes in Smart Energy and manufactures best-in-class residential battery energy storage systems. HomeGrid has 3,029 followers on LinkedIn.

Why did Lithion buy HomeGrid?

Lithion acquired HomeGrid after seeing the outstanding quality of the products and the value that it brought to communities during natural disasters and power outages. With Lithion's backing, HomeGrid has been able to scale throughout the United States, and now has launched into Europe and Central/South America.

Why should you choose HomeGrid?

At Lithion Battery Inc's HomeGrid, we offer a product that is customizable to your needs. Our modular packages for homes, businesses, and industrial uses make it easy for us to cater power storage to individual customers. Our batteries are comprised of Tier 1 prismatic cells, which allows us to stand by our 10-year warranty.

Why is HomeGrid UL 9540 certified?

HomeGrid's certification to UL 9540 allows it to expand its offering to more customers across North America. HomeGrid products offer a high capacity, customizable power solution catered to each customer through its unique modular design.

What happened to HomeGrid?

Spencer created the go-to-market strategy and built out the internal infrastructure to sell nationwide. He also formed a partnership with Sol-Ark which aided in rapid growth. HomeGrid was acquired by Lithion Battery in September 2021.

What is a HomeGrid battery?

HomeGrid batteries are customizable power solutions with a high capacity, comprised of Tier 1 prismatic cells. The batteries offer exceptional performance and are backed by a 10-year, 4000 cycle, non-pro-rated warranty. HomeGrid products deliver a unique modular design catered to each customer.
