A gaming uninterruptible power supply (UPS) is a battery backup for your PC and console. APC's award-winning Back-UPS??? Pro Gaming keeps you protected, connected, and in the game. Midnight. Back-UPS Pro Gaming. When the UPS is on battery backup power, the reactor circle ticks down so you can see how much time is left at a glance.

Do You Have a Generator in Place ??? Battery backup systems generally cannot provide power to computer systems for an extended period. Hence, gas or diesel-powered generators often accompany them. When this is the case, your battery backup system only needs to supply power until the generator kicks in and the electricity flows again.

A UPS provides an always on power source that will help keep your most important data and sensitive electronics safe in blackouts, brownouts, or other power fluctuation events. The basic idea of a UPS is that when a system loses electrical grid power, the UPS kicks in immediately with battery backup power and ensures the system does not suffer

An uninterruptible power supply (UPS) offers a simple solution: it's a battery in a box with enough capacity to run devices plugged in via its AC outlets for minutes to hours, depending on your
