

Who owns Al husainiyah solar?

The Al Husainiyah solar plant, 200km south of Jordanian capital Amman, began commercial operations a week ago with more than 200,000 panels manufactured by 30% joint owner Philadelphia Solar. The solar farm was awarded a 20-year power purchase agreement under Jordan's feed-in tariff program.

Who is Philadelphia solar?

Philadelphia Solar is a specialized solar company with wide experience in the photovoltaic market. It installed the first grid-connected system in Jordan and the region. Immediate delivery. Fast transit time. Flexible delivery terms. AVL listed. Compliant with W8 and W9 forms. How our solar panels resist the effect of shadings? How!

Who owns Jordan's power plant?

The panel maker will own 30% of the power plant with AMEA owning the balance of a facility awarded under the second round of Jordan's feed-in tariff program.

Established in 2011, Peninsula Solar is a photovoltaic design and installation service started by electronics engineering technician and professional roofing contractor, Ian Olmsted. Steady growth has led to the development of a dedicated team of individuals aiming to provide customers with a smooth transition into the world of renewable energy.
