

Can a solar system work in Peru?

To implement a solar solution that would work on such a massive scale and in such varied climates, the Peruvian government has made a tender won by Tozzi Green, an Italian company specializing in products, services, and projects for the development of plants and the generation of energy from renewable sources.

Is solar energy a good investment in Peru?

Solar energy has tremendous potential in Peru, which can be witnessed in the upcoming period. Although the government of Peru is exceptionally modest in terms of the renewable goal, with the aim of 5% by 2025, the government has launched several initiatives and schemes to encourage the growth of renewables commercially and residentially.
