

Where can I get a photovoltaic installer training?

To become a photovoltaic installer, you can consider training with providers like the International Brotherhood of Electrical Workers (IBEW). These training classes are designed to help you pass the test and learn the necessary skills. Union membership may be required to participate.

How do I get a photovoltaic installer license in Nevada?

To get a photovoltaic installer license in Nevada, you must fill out an application and submit it to Nevada OSHA. You must pass a test administered by Nevada OSHA with 70% or more of the questions correct. The application can be found here: [Application for Photovoltaic Installer License](#). To make an appointment for the test, please contact Nevada OSHA.

What is a photovoltaic installer?

A photovoltaic installer is any person engaged in the wiring, grounding, or repairing electrical apparatus and equipment in a photovoltaic distributed generation system.

How long does a photovoltaic installer's license last?

Photovoltaic Installer's Licenses issued by the Division are valid for one year from the date of issuance and must be renewed annually. Q: Do I have to re-take the test every year?

Who is involved in a photovoltaic system project?

Any persons directly engaged with the installation and maintenance of the electrical connection and wiring of a photovoltaic system. This includes those involved in the wiring, grounding, or repairing electrical apparatus and equipment in a photovoltaic distributed generation system.
