Photovoltaic (PV) solar panels can seem an attractive option. But before you can enjoy a sun-powered home, you'll want to find out if solar panels stack up for you. In August 2018, we arranged for four solar installers to assess homes in Auckland, Christchurch and Hawke's Bay, The ideal solar PV system for your home is sized so you

As interest in renewable energy grows, more homeowners in Christchurch are investing in solar panels and solar PV systems in particular. If you're not familiar with PV systems, it stands for photovoltaic as special cells in the panels convert light particles from the sun (photons) into usable electricity (volts). This is different from the older style of solar panels that only heat water ???

cost-effective solar panels, ???

A PV system uses solar panels that contain  
semi-conductor material (often silicon) which  
creates an electrical current when the sun shines on  
it. Ideally, panels should face north and not be  
shaded for the majority of the day, but especially  
around noon. All components of a solar PV system,  
including any batteries, must comply with relevant
