Need backup power at home or on the go?
Consider a solar-powered generator. Solar generators for houses don't generate power the same way gas-powered home standby generators, like Generac generators, do. Instead, they collect solar energy via solar panels and store it in lithium-ion and lead-acid batteries for later use.

Before purchasing solar panels for your mobile home, consider maximizing efficiency first. Upgrading to LED lighting, efficient appliances, and better insulation can reduce your mobile home's electricity usage by 20-30% or more. This means you can get by with fewer solar panels.

Solar Panels or Photovoltaic Systems are solar cells that capture light energy from the sun and convert it directly into electricity. The home must be in the United States. It can include a house, houseboat, mobile home, cooperative apartment, condominium, and a manufactured home. ENERGY STAR Save Energy. Find Products; Save at Home; New
