

About Us. Intellectual Technology & Communication Pty Ltd is a reseller of one of Australia's largest domain registrars. This means we have access to their world class web hosting infrastructure, and our customers get the best of both worlds - the personal touch of a small company, and the security and reliability of a large one.

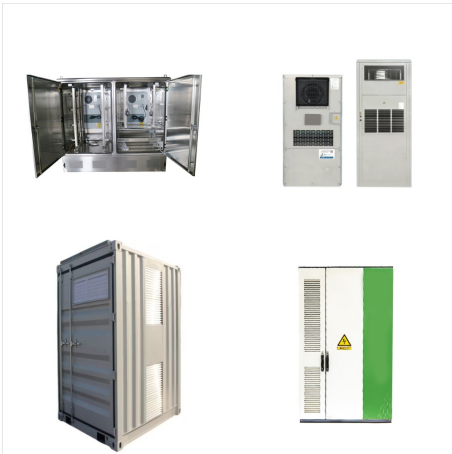

The technology is used for the generation of solar energy. The development of the technology resulted in intellectual property. In 2005, a company was incorporated, Photovoltaic Technology Intellectual Property (Pty) Ltd ("PTiP") by UJ, through which the commercial application of the technology could take place.

In 2011, thin-film solar photovoltaic technology accounted for 11% of market share and further growth is expected. Journalists are invited to the unveiling ceremony. Date: 28 February 2014 Venue: Photovoltaic Technology Intellectual Property (Pty) Ltd, 16 Elektron Way, Technopark, Stellenbosch 7600 Time: 14h00. For more information, please contact:
