

The global biological value of the marine ecosystems of the Pitcairn Islands is outstanding, and deserves strict protection and recognition. A large no-take reserve, while allowing for traditional small-scale uses, conserves this unique environment, attracts scientific and conservation interest in studying and protecting the area, and also increases tourism to the islands, all of which ???

Solar Tiles: More expensive due to complex installation and newer technology. Solar Panels: Cheaper installation. Return on Investment: Solar Tiles: Less energy efficient, taking longer to recoup costs but can add up to 10 per cent to property value. Solar Panels: Faster payback period of 5-15 years. Solar Tiles vs. Solar Panels: The Result
