Is the maxbear smart charger case good for iPhone 13?

Should I use a MagSafe battery pack or a battery case?

The advantage of a MagSafe battery pack over a battery case is that your iPhone remains slim and protected in a standard case, and you get a much wider choice of case designs by not choosing a battery case. When you need a recharge, you simply clamp the portable power bank to the phone and start recharging.

Can a power bank charge multiple phones?

It's hefty and lacks MagSafe, but it can wirelessly charge multiple devices and its stand is super sturdy. This power bank is MagSafe-compatible, can charge most phones up to three times, and includes a sturdy kickstand. It's less powerful than many wired chargers but can still charge most phones at top speed.

Should you buy a portable power bank?
