

The fully-charged 10000mAh Mi Power Bank 3 Ultra Compact was able to fully charge an iPhone SE (A2298) in airplane mode with 1% battery approximately 3.1 times. \*Mi Type-C to Lightning Cable (1m): the cable connects at the USB-C port of the power bank and can be used to charge Apple devices with Lightning charging ports.

Unfortunately, most of Poland's electricity still comes from fossil fuels, with coal powering 72% of the country's power in 2021. Climate activists have been critical of Poland's reliance on non-renewable power sources, and the country seems to be lagging behind its neighbors in terms of transitioning to green energy alternatives.

A good quality power bank can last between 600 to  
1,000 charging cycles, which translates to  
approximately 1.5 to 3.5 years of usage. However,  
the actual lifespan may vary based on factors such  
as the quality of the power bank, your usage  
patterns, and how well you maintain it.

Greenvolt Power, the subsidiary of the Greenvolt Group for large-scale renewable energy projects, has agreed with DNB Bank and mBank a Revolving Credit Facility (RCF) totalling ???90 million.
