POLLARD IV WHO OWNS A SOLAR ELECTRICAL COMPANY

How much your electric company pays for your excess solar power depends on your electricity plan. Because you can't literally sell power back to the grid, you'll be selling it to your retail electricity provider. Some companies will pay you on net metering at a fixed rate per kilowatt hour for your excess power. But that's too risky for

Alinta Energy owns and operates power stations across Australia. The company also continues to invest or underwrite large scale renewable energy projects across Australia including solar power, battery storage and major wind farm operations, including Western Australia's biggest wind farm. Amber Electric

Because PV technologies use both direct and scattered sunlight to create electricity, the solar resource across the United States is ample for home solar electric systems. However, the amount of power generated by a solar energy system at a particular site depends on how much of the sun's energy reaches it, and the size of the system itself.

POLLARD IV WHO OWNS A SOLAR ELECTRICAL COMPANY

Who owns my solar panels. manda84b Posts: 29 Forumite. If it was not brought up in the sale of the house then I would say that they belong to one of the rent a roof companies. Probably the only benefit you will get is the free electricity they produce when the sun is out.
