

The price of portable power stations can be difficult to pin down, as they fluctuate substantially not only depending on the proximity of a retailer holiday like Amazon Prime Day or Black Friday, but also between retailer sites. For some of the portable power stations in my test, "list price" would vary between retailer sites by up to \$400.

The Togo Power A240 is in the lower level of entry level portable power stations at a good price per watt-hour. It features all of the normal capabilities of these power stations: a built in MPPT solar controller (charger), pure sine wave inverter, one USB type-C PD60W port, two USB type-A QC3.0 ports, one 200W AC socket and a 12V, 10A car port (cigarette lighter socket).

More akin to compact electric generators than to large batteries, portable power stations can recharge small devices like phones or iPads dozens of times, and they can even keep larger appliances
