

Does GFI notify detect a power outage?

Please Note: GFI Notify can monitor any electrical outlet (or circuit), whether it's a GFI outlet or not, and will provide power outage detection and notification. Even for a dedicated circuit, having a power failure notification can be important.

Will I receive notifications for every power outage?

No, you will not receive notifications for every power outage. In order not to disturb you with notifications about brief flickers in power, we will only notify you about problems lasting several minutes or more that cannot be resolved quickly by our smart grid technology.

How much does GFI notify power outage notification system cost?

GFI NOTIFY Power Outage Notification System with 2 Free Smartplugs 4.5 out of 5 stars 363 50+ bought in past month \$69.00 \$69.00 FREE delivery Jan 2 - 3 Or fastest delivery Dec 26 - 28 Small Business Small Business Shop products from small business brands sold in Amazon's store.

When will I receive an outage alert?

Typically, this notice is sent out about 20 minutes after we have confirmed the information on a particular outage, so you may not receive a notification immediately upon our system identifying the outage. What type of outage alerts should I expect?

What notifications do I get if my power goes out?

You can choose between email, voice and text notifications and can opt-out at any time. With these notifications, you'll get: An estimated time of when the power will be restored and notification if it changes by more than an hour. An estimate of the number of customers affected around you.

What happens if your power goes out?

Electricity isn't just a luxury. An extended power outage could result in food spoilage, harm to your pets, a flooded basement, or burst pipes. Use these solutions to get automatic alerts when your home's power goes out so you can take action.
