

What is a pump Sentry battery backup 822ps?

The Pump Sentry Battery Backup 822PS is engineered to dependably handle the power for your primary sump pump during power outages(HERE'S HOW IT WORKS: Pump Sentry interfaces between a pump and the AC electrical supply).

What is a basement Sentry battery backup sump pump?

The Basement Sentry battery backup sump pump system provides additional protection against basement flooding for your peace of mind when the power goes out. It is designed to work only during power outages or if your primary pump does not work.

How does the Silent Sentry battery backup system work?

The Silent Sentry Battery Backup System works by monitoring the operation of the system through a companion app. This app allows homeowners to keep track of pump cycles and run times. It will alert you when the backup system is active, so you can monitor how long it runs and know immediately if the primary pump isn't working.

What is a power Sentry battery?

Power Sentry batteries fit in the tightest of applications, including low-profile lensed troffers, downlighting and industrial lighting fixtures. They also feature an innovative Quick-Disconnect wiring harness that makes field maintenance and upgrades quick and easy.

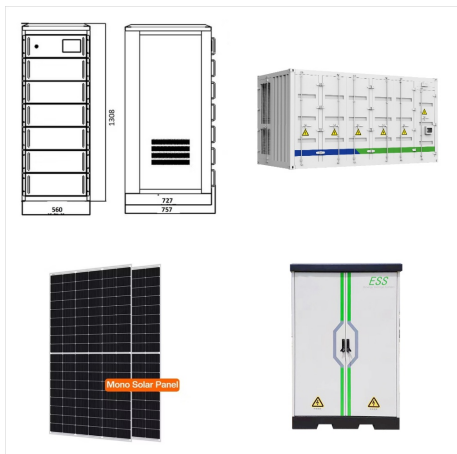

How does a battery backup system work?

A battery backup system for a sump pump charges the battery when electricity is available and monitors the power line to detect a power outage. When a power failure occurs, it draws the energy stored in the battery and converts it to AC power. This AC power is automatically channeled to the pump to maintain its operation in the absence of electricity.

How does sentry improve battery life?

Sentry is built to maximize battery life. We streamlined and compressed the communications between ForeFlight Mobile and Sentry, which results in the more efficient use of Sentry's processors and extended battery life. The biggest factor affecting battery life is LED brightness.

Ensure uninterrupted operation during power outages with the Pump Sentry Sump Pump Battery Backup Model 822PS. Designed for reliability, this backup system offers powerful, automatic activation to keep your sump pump running smoothly in any condition, safeguarding your basement or crawl space from water damage.

Pump Sentry??? for sump pumps comes in two sizes (power ratings). The 822PS is the smaller of the two, good for pumps drawing up to 9A of current, and the 1622PS will work for pumps drawing up to 14A. one of the goals is to maximize the backup pumping time with a given battery. Naturally the more current that is drawn from the system the
