The system consists of a high capacity, 100 amp hour, deep cycle lead-acid battery. The battery is charged by two 50 watt, Second generation, flexible solar panels; which are stored in a compartment in the unit. 45 foot leads are provided for the solar panels, allowing you to put them on the roof or some hidden area, without giving away the presence of your ???

# POWER WHISPERER SOLAR GENERATOR

VAC | Split/Dual Fase | 60 Hz. By adding the autotransformer to your generator or power system it is possible to convert the output voltage of your generator from single phase 230 VAC, to 2 phase 120/240 V.. The frequency can easily be converted from 50 to 60 Hz via a dip switch in the PMG inverter which is a standard part of the generator delivery.

# POWER WHISPERER SOLAR GENERATOR

The goal of the Patriot Power Generator is to give people a generator that can't be shut down and isn't cost prohibitive to keep running, which is why they have created a solar generator. This generator is "whisper quiet," fume free, discrete, and safe to use. It offers up to 1,500 continuous watts of clean, renewable power.

The SunTrack MPPT (Maximum Power Point Tracker) controller works to get the most out of the solar panels by converting the majority of the yield in to battery power. Several high frequency panels (up to 600 VDC) can be connected to the Soundtrack MPPT controllers, creating a powerful generator with maximum efficiency.
