

What is a powersafe sbs-100f battery?

The PowerSafe(TM) SBS-100F battery utilizes unique and proven technology to provide superior performance with an extended service life in compact and energy dense configurations. PowerSafe SBS batteries are manufactured to the highest international standards and are ideal for reliable use in all wireless and fixed-line communication applications.

What is the capacity of a powersafe SBS battery?

Capacity range: 31 - 190Ah12V monobloc configurations Multiple string configurations available Two year shelf life SR-4228 compliant Proven long service life High energy density and cycling capability The outstanding PowerSafe® SBS Front Terminal battery further extends the technical leadership of PowerSafe® SBS batteries range.

What is a powersafe SBS front terminal battery?

PowerSafe® SBS Front Terminal batteries retain the benefits of Thin Plate Pure Lead(TPPL) technology such as long-life,high-energy density and superior shelf life. They also deliver exceptional cyclic performance in both float and fast charge applications,even in the hottest and harshest operating environments.

Is EnerSys SBS 100F a credit card?

No Credit Card. No Commitment. EnerSys's SBS 100F is a battery rectangular 12v 100ah rechargeable. in the batteries and accessories,batteries category. Check part details,parametric &specs and download pdf datasheet from datasheets.com,a global distributor of electronics components.
