

According to smarter lighting concept The Public
Utilities commission of Sri Lanka (PUCSL) has
approved the time of use (TOU) tariff for the
domestic uses that consume a Three-Phase power
supply. By implementing this TOU tariff, PUCSL
aims to reduce power usage during the peak hours
and promote power usage during the off-peak hours.
This is a

Why switch to solar power. Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.

Like most people in Sri Lanka I too was on the look out for a viable solution to the looming power bill.I came across REM Solar on FB amongst many other vendors all of whom I contacted . The response however was totally different from REM, the response to educate on the workings of the system was primary rather than to make a sale.

Solar energy in Sri Lanka is one of the most preferred forms due to an abundance of sunlight, being located closer to the equator. Fentons Solar managed to bring in an impressive turnover through the installation of roof-top solar panel. ???

For residents of Sri Lanka, the cost of solar panels is a crucial factor. The solar panel price in Sri Lanka can vary based on the brand, quality, and installation services provided. Local solar companies in Sri Lanka offer a range of options to fit different budgets, ensuring that more households can benefit from renewable energy.
