

Will Bulgaria achieve a 27.09% share of res in energy consumption?

In compliance with the goals of the European Union (EU), Bulgaria will strive to achieve at least a 27.09% share of energy from RES in gross final energy consumption by 2030. This national target should be achieved by increasing the consumption of RES in all three sectors: electricity, heat, and energy for refrigeration and transportation.

Could geothermal energy be a solution to decarbonization in Bulgaria?

The exploration and construction of geothermal energy sources and storage facilities are also foreseen as a possible way to smooth the decarbonization of the Bulgarian energy sector by reducing emissions.

What are res policies and incentives in Bulgar-IA?

RES policies and incentives in Bulgar-ia are generally established at the national level under the ERSA and the Integrated energy and climate plan of the Republic of Bulgaria 2021-2030, drafted following the main strategic documents at the European and national levels.

Can foreign investors invest in Res projects in Bulgaria?

Bulgarian regulations do not prohibit or restrict foreign investors or companies with foreign ownership from investing in RES projects. Many investors still see Bulgaria as an attractive destination that provides government incentives for new investments.

Are there any offshore wind and floating PV projects in Bulgaria?

There are no Offshore Wind and Floating PV Projects in operation in Bulgaria yet. Currently, discussions are taking place intending to adopt a special regulation on energy from RES in marine spaces (drafts have already been prepared), which would be a basis for attracting investors in offshore wind farms.

6.2. Rooftop Photovoltaic Projects

Is Bulgaria a good place to invest in Res?

Many investors still see Bulgaria as an attractive destination that provides government incentives for new investments. Due to its strategic location and low tax rates, Bulgaria is highly suitable for foreign investments in RES. In addition, Bulgaria offers some of the least expensive labor in the EU and low, flat corporate and income tax rates.
