

Who is prominent energy?

Prominent Energy specializes in providing sustainable energy solutions for both residential and commercial clients. Our team of experts is committed to making the transition to solar energy as smooth and efficient as possible, while also ensuring the highest quality of workmanship. Lack of knowledge is costly!

Why should you choose prominent solutions?

ProMinent solutions simplify everything: even complex power plant systems are optimally organised through a combination of our pumps and metering systems. We'll take care of things for you

What certifications does prominent GmbH have?

ProMinent GmbH has successfully obtained certification according to DIN ISO 14001. This certificate confirms the company's commitment to an effective environmental management system and responsible use of natural resources. The importance of water treatment in public swimming pools and private pools cannot be overstated.

Sustainable Energy Solutions By switching to solar energy, you are making a positive impact on the environment and reducing your carbon footprint. Ongoing Support We understand that solar energy systems require ongoing maintenance and support. That is why we offer ongoing support to ensure that your system continues to operate at maximum

Green hydrogen is crucial for the shift to climate-neutral industry. With use of hydrogen as an energy source still in its infancy, however, companies face numerous questions. ProMinent will be providing answers to these and more at ACHEMA, the leading trade fair for the process industries, taking place from 10 to 14 June 2024 in Frankfurt am Main.

Features and Benefits. Always one step ahead of events - keep an eye on the status and functionality of systems at all times and react in good time thanks to configurable alarms with e-mail notification function. In an emergency, easily create and share documentation in order to receive competent help as quickly as possible.

Be part of the ProMinent success story! We welcome people who put their skills to good use, who ask questions, who think outside the box and who enjoy producing new solutions for our customers.
