Some batteries (particularly the PSP-S110 B model) are very brittle and will shatter if you use too much force. The remaining weld might be very strong and will need to be pre-cracked with the screwdriver first (WARNING: Now that the lithium battery is exposed, please take care not to short the battery. Meaning, don't allow the positive and

Earlier today, Kokatu reported that PSP owners are posting images of their handhelds" lithium-ion batteries on Twitter, showing that the power sources have begun to bulge and swell from years of sitting around unused, which in turn prevents them from fitting inside the PSP properly. Worse, some have even burst open, causing the mucky acid
