

Lundin Energy AB changed its name to Orrø Energy AB (publ), rebranding the company as a pure-play renewables business after divesting its oil and gas business to Aker BP ASA. Orrø Energy is trading under Lundin Energy's LUNE ticker until the registration of the name change, which was expected to occur July 1.

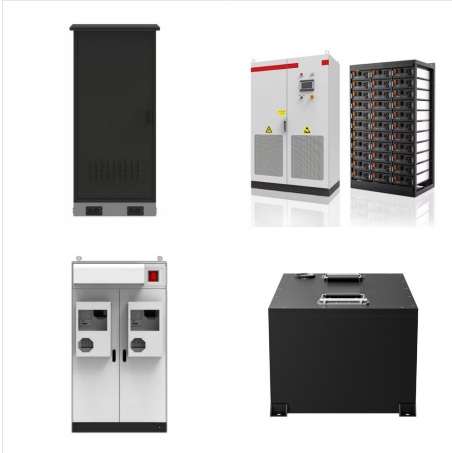

Renewable energy generates about 20% of all electricity in the USA ??? a percentage that is continually growing, according to the Office of Energy Efficiency and Renewable Energy. Looking at energy generation, 9.2% can be attributed to wind, 6.3% to hydropower, 2.8% to solar, 1.3% to biomass and 0.4% to geothermal.

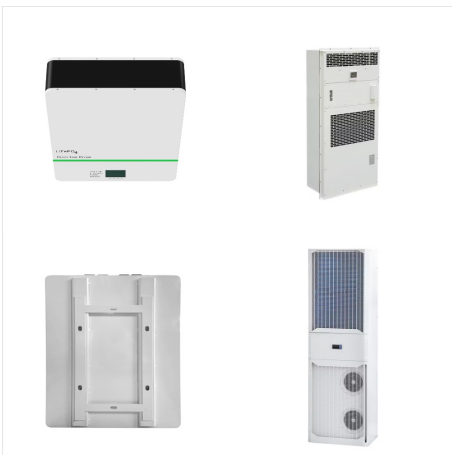

Many U.S.-based pure-play refiners began 2021 in much the same vein as 2020, with the uncertainties of the COVID-19 pandemic and muted demand for refined products suggesting another year of hunkering down and weathering the storm. Amidst increasing investor pressure to focus on renewable energy and sustainability, significant uncertainty
