

Early on we recognised the challenges of synchronising EV chargers and battery storage when used together. This realisation propelled us to pioneer the market's most integrated EV charger. For maximum savings from your battery system, EV charger and solar array, seamless communication is essential.

PureStorage II 3-Phase Battery. Parallel capability allows a range between 11.5kWh and 69kWh. Start small and expand on demand. With the longest battery life and fastest charge (1C Rated) you get the best return on your investment available.

We achieve this with the PURASystem TM a suite of highest-performing, cost saving energy products that have the best return on investment available today. Learn how we do this by joining me in my next weekly webinar "Mark Millar Founder & CEO ??? Official UK Expert in Battery Storage Technologies"

Modular and simple to increase battery storage as your needs change. Designed and Developed in the UK. Puredrive has a dedicated team in the UK with nearly 100 staff, providing leading R&D, technical and customer support. Hassle Free Automated Cost Savings.

PureStorage II Battery 5kWh uses the safest and highest performing lithium-iron-phosphate battery cells, with 1C operation, 10,000 cycles and a high charge and discharge rate capability. It is compatible with leading inverters on the market, including Solis, Victron and Imeon.

The PURASystem??? means you always get the best price. We help you take control of your energy and save up to 85% of your energy bill. Our smart app automates maximum savings by integrating with all time-of-use tariffs. This means you always store and use the cheapest, greenest energy.
