

How much do Q CELLS solar panels cost?

Recent quotes from solar companies through our solar panel cost calculator show prices of between \$2.30 and \$2.49 per watt. The national average cost of solar panels is \$3.00, meaning that solar systems using Q CELLS solar panels are competitive with the rest of the market.

Are Q CELLS solar panels a good choice for my solar project?

Q Cells solar panels by Hanwha are a great choice for your commercial, residential, or utility-scale solar project. Modules are produced with rigorously-tested solar cells made in-house to ensure quality.

What is the warranty on Q CELLS solar panels?

Every standard and "L" model Q CELLS solar panel comes with a 12-year product warranty and a 25-year linear performance warranty . Q CELLS guarantees that their panels will put out no less than 98% of the panel's rating during the first year, and degrade by a maximum of 0.54% per year thereafter.

How Much Do QCells Solar Panels Cost? Like panels from all manufacturers, QCells panels range in price based on your location and the solar contractor you hire to install them. However, the average cost per watt is ???
