

What questions should you ask when evaluating a solar company?

As you're evaluating solar companies, it's important to ask questions about the company, the equipment, money, the work being done, and the future. Here's how.

Should you ask a solar installer about the equipment they choose?

Luckily, SolarReviews offers real customer reviews of solar panels, inverters, batteries, and more. That doesn't mean you shouldn't ask the installer about the equipment they choose. You should! Here are the questions to ask about solar panels and other equipment: Why did you choose the equipment you did?

How do you evaluate a solar company?

The rankings were utilized and referenced by a diverse mix of policymakers, advocacy groups, and media including The Center... As you're evaluating solar companies, it's important to ask questions about the company, the equipment, money, the work being done, and the future.

How do I find a good solar company?

It's also a good idea to ask for an itemized breakdown so that you can compare solar companies and make sure you're getting the best deal. Ask the company to include the cost of labor and each piece of equipment to see how the companies stack up to one another. You don't want just anyone climbing up on your roof and installing solar panels.

How do you know if a solar installer is good or bad?

You can tell the difference between a good and bad installer by how willing and open they are about answering all your queries. Solar panels represent the ideal of a low-maintenance product, and once yours are fully installed and activated, you may never have to contact your installer again.

How do I choose a solar panel company?

Ask the company to include the cost of labor and each piece of equipment to see how the companies stack up to one another. You don't want just anyone climbing up on your roof and installing solar panels. Another important part of the hiring process is to know exactly who will install the panels.

QUESTIONS TO ASK SOLAR COMPANIES REDDIT

Can You Provide Testimonials? Will they let you call anyone from their customer list at random for an unrehearsed, unbiased reference?

I am a Regional Manager for a very large Solar Company. I hire people from other Solar Companies often, both large and mom-and-pop size operations. I have never heard of a structure like your client is describing. My average 1st year rep grosses a little over 183K/year. So, their annual take-home pay is not unheard of.

Here are 15 questions to ask solar installers to ensure you're making the right choice. Can solar panels save you money? Interested in understanding the impact solar can have on your home?

QUESTIONS TO ASK SOLAR COMPANIES REDDIT

In other words, assuming you have 250 acres of land that is worth 10k per acre - the solar company may say that you have 150 acres of useable land - and offer to lease all 250 acres at a 150 acre rate (they may offer 12% of land value per year - so \$180k/year). While this sounds like a good deal on paper, you should ask for the full acreage value.

And then avoid questions regarding pay, benefits, time off, and things like that. Those are questions you should ask the recruiter handling the position req or wait until after you've been offered the role (but before accepting/declining) and then ask. Most employers will just disclose all of that info when they make an offer to you anyway

Also wanted to mention that there are tax credits at the federal level (a investment tax credit) which allows you to deduct 30% of the solar panel cost off of your taxes (the solar companies can explain this better) but if you have any other questions let me know. I used to work at a solar company but they're out of business

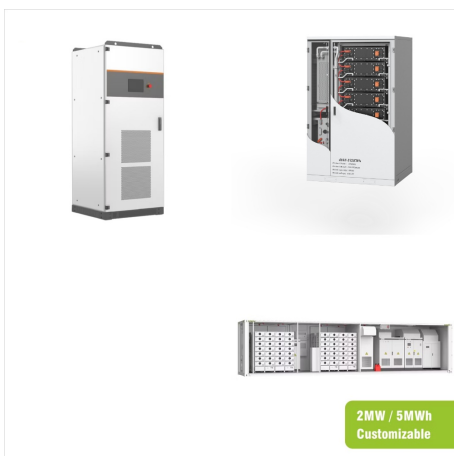

QUESTIONS TO ASK SOLAR COMPANIES REDDIT

I always ask all the interviewers what they like and dislike about the company and their job, what were they expecting and if their expectations were met. Also I usually check their profiles on LinkedIn beforehand and if they used to work at a company I have an idea about I ask them to compare it to the current company.

If you consider it your duty towards saving the planet, then this a reasonable option. However if the questions are purely financial, let me say that there are many pitfalls. A company hoping you will pay them ?11,000 might "forget" to warn you about them. At the end of thinking about this, only you can make the decision.

As a solar power owner, I have not come across a national solar installation company that consistently provides exceptional customer service across different regions and markets. From my experience and research, locally owned and operated solar companies tend to have better reputations for customer service and overall satisfaction.

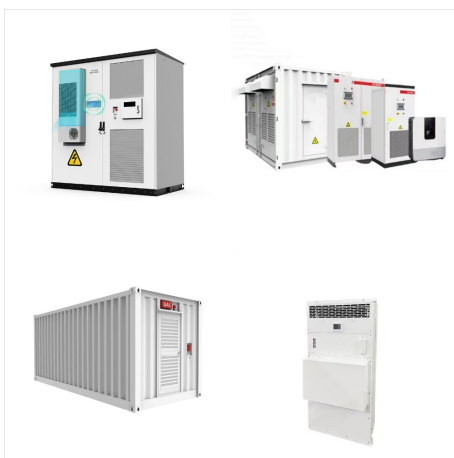

QUESTIONS TO ASK SOLAR COMPANIES REDDIT
