Our Medium Off-Grid Solar Systems are entry-level residential power systems, large enough to supply an efficient household with renewable energy. Suitable for low-consumption electricity users who are used to cooking with gas, and who do not heat or cool the dwelling with electricity. Rainbow Power Company acknowledges the Widjabul/Wia-bal

A rubberized bumper protects your walls and furniture. Illuminates the path ahead, ensuring you'll never miss a spot. Dirt, pet hair and crumbs vanish in the Power Nozzle's powerful revolving brush. Circulating Active-Edge brushes clean tough-to-reach debris along baseboards. Learn what makes the Rainbow the world's most advanced cleaning system.

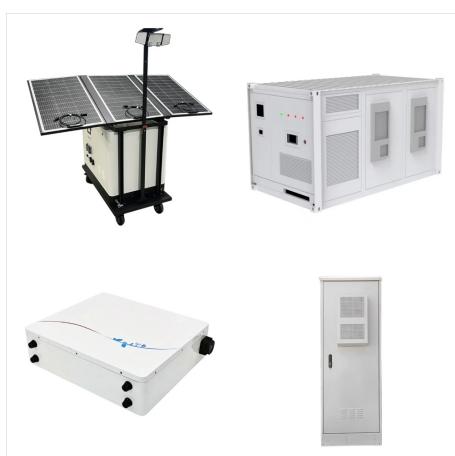

We've been pioneering remote solar systems in Australia since the '80s - so we know a thing or two about what system size and configuration might suit you best. The team at Rainbow Power Company take pride in creating genuinely suitable home solar systems, and can help you figure out what set up is right for you.

Our Small Off-Grid Solar Systems are compact, pre-wired power systems. These systems can energise a lot of small gear, including an efficient fridge. Suitable for low-consumption or infrequent electricity users. Ideal for remote sheds, beach huts, motor homes or weekenders.

When you purchase a Rainbow, you are buying many years of product development, continuous improvement and ingenuity. Plus, your Rainbow is supported by Rexair LLC and by your local Independent Authorized Rainbow Distributor. Only an Authorized Rainbow Distributor/Dealer can sell and support an authentic Rainbow.

Power Nozzle. Wall-to-Wall Cleaning. The Rainbow Power Nozzle does a fabulous job cleaning carpeting, tile, linoleum and other hard surface flooring. Dirt, pet hair and crumbs vanish with the Power Nozzle's powerful revolving brush.

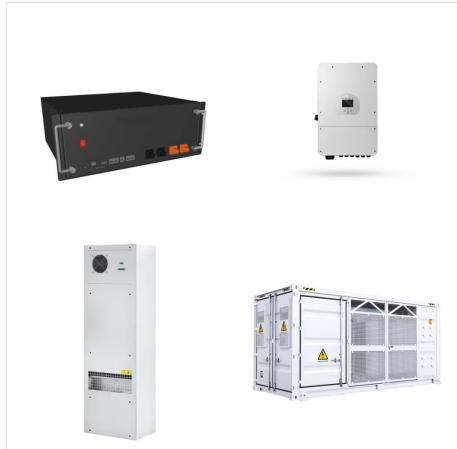

We'll do the dirty work for you! We offer services to keep your Rainbow Play System investment safe and looking new! We offer three package types for this. Basic Package includes: Power-wash, hand staining/spray staining, and bolt tightening. Deluxe Package includes: Soap bath, power-wash, and staining/spray staining, and bolt tightening.

Power is usually transmitted through overhead power lines. Since overhead transmission lines are uninsulated, design of these lines requires minimum clearances to be observed to maintain safety. Adverse weather conditions of high wind and low temperatures can lead to power outages: wind speeds as low as 43 km/h can permit conductors to encroach
