

Rainbow solar Quartz is a colorful gemstone known for its glossy and shiny shape. It has been used to decorate the frame of jewelry, and many people wear this for healing purposes. It is sliced from stalactites, in a white or clear gray hue, and generally has mossy inclusions. It enhances energy, connecting you with harmony and spirit.

Solar system Installation. I cant speak highly enough of Rainbow from the first consultation right through to end of the installation. Took about 3 weeks from start to finnish,two day installation by a great team of lads, did a very tidy job, kept us updated at every point, asked our opinion and if we were happy with the layout of everything, we just let them crack on, they knew what they

Mark began his solar education journey in 2017, working for various local & national solar companies in the Albuquerque area. Naturally open-hearted and empathetic, Mark saw a need for integrity in the solar industry when he noticed how some of those companies treated their customers. But then he saw the light at the end of the rainbow
