12V 10AH SLA Replacement Battery for Razor Dirt Quad - 2 Pack. Questions & Answers Terminal: F2, listing is for the battery only, no wire harness or mounting accessories included; 2-pack; Return Policy; California residents

The easiest conversion would be 36 volt Lithium upgrade, just buy a battery that comes with a charger. The overvolting option would increase the speed by 2-3 mph but you would need the 48 volt controller for charging and running at 48 volts. Greetings! I "m just starting learning what I need to learn in order to do a Lithium conversion and

When switching from a lead-acid battery pack to a lithium battery the Voltage should be the same unless you are overvolting the scooter, however, there are other factors to consider also such as the lithium battery's maximum continuous discharge current rating and its open circuit Voltage range/discharge cutoff Voltage. Upgrade Razor Dirt

Easy plug and play upgrade. Ordered this kit for our  
razor dirt quad 500. Everything was well marked  
and made for a pretty easy install. I had to modify  
some plastic to mount the new speed controller but  
not a big deal. I ended up basically strapping the  
additional battery on top of the original battery  
compartment and its been pretty secure there.
