

Does Kosovo need a new energy sector?

Given this background, the Government of Kosovo has prioritized the modernization and improvement of the country's energy sector, and has asked its development partners, including the World Bank, European Commission, KfW, USAID, as well as other donors, for support and assistance.

How much power does Kosovo have?

More...Today,Kosovo's electricity operating capacity is about 900 MW,almost all of which comes from two antiquated coal-fired power plants,Kosovo A and Kosovo B. As the population grows,ongoing constraints on power will continue to increase.

Why do people still burn firewood in Kosovo?

Many citizens still burn firewood and coal for heating and cooking,which generates air pollution that in turn causes respiratory and other health problems. Without a reliable,affordable,and sustainable electricity supply,foreign and domestic firms are reluctant to invest in Kosovo and create jobs.

The Assembly of Kosovo approved the Energy Strategy of the Republic of Kosovo 2022-2031 on 8 March 2023. You can find the Strategy at the following link: [https://me.rks-gov /en/energy-2/](https://me.rks-gov/en/energy-2/)
