

Solar panels traditionally require a significant up-front investment and a long-term pay-back period, but what if you could rent them short term? Redavia leases cost-effective, convenient and clean solar farms without up-front capital investment or long-term obligations. The farms in turn reduce consumption of diesel fuel by generators, improve

MUNICH, Germany and ACCRA, Ghana, May 23, 2017 /PRNewswire/ -- The Regional Maritime University (RMU) has chosen REDAVIA, a global market leader of cost-effective rental solar power for businesses

By leasing the REDAVIA FTS-80GM system, clients get cost-effective energy to power their operations and development. The FTS-80GM is REDAVIA's premier solar farm solution. The system is completely pre-assembled by REDAVIA with all components when delivered to site. The FTS-80GM is then installed on unobstructed level ground by REDAVIA's trained

Illuminating minds with solar power REDAVIA's cost-effective leasing business model made it possible for RMU to turn their solar ambitions into reality, despite the university's tight budgetary constraints. In November of 2017, REDAVIA implemented an 86 kWp plant on the university campus. RMU immediately saw significant
