

Energy companies need to meet increasing demands for renewable sources to achieve sustainability goals; KPMG can help. The adoption of wind, solar and other renewables is accelerating as costs fall, reliability increases, and global interest in reducing carbon emissions continues to climb.

Collectively, those renewable energy projects in operation or under construction (and their 3,481 MW net generation capacity) are enough to meet the electricity needs of about 1.3 million homes 1, based on net generation figures, which ???

An in-depth look into CDP's findings illustrates a stark contrast: while the few companies with a renewable energy strategy incorporate an average of 53% renewables into their energy mix, an overwhelming majority lag behind. Only 5% set benchmarks for improving energy efficiency ??? a critical and beneficial strategy often overlooked.

Over the course of two weeks of the conference, the International Renewable Energy Agency (IRENA) launched key initiatives and engaged with governments, the private sector, and youth, advocating for ambitious outcomes that would ???

Synera Renewable Energy (SRE) has secured an establishment permit from Taiwan's Energy Administration for its 495MW Formosa 4 Offshore Wind Project. This achievement positions Formosa 4 as the first among the successful bidders in the first round of auctions for Phase 3 Zonal Development of Offshore Wind to reach this critical milestone.

From a technological perspective, the energy transition seems to be equated with transitioning entirely from fossil fuels to renewable energy sources through novel technologies. While this is an ideal scenario for the betterment of the planet, the reality could involve drastically reducing fossil fuels and significantly increasing renewable fuels.

**Outdoor Cabinet BESS**  
for 1000V-1500V class Battery Energy Storage Systems  
Industrial and Commercial Energy Storage

TAX FREE  
1.3MWh BESS

- All in One: Integrating battery packs, BMS, and power conversion system
- High-capacity: 10-100kWh
- Degree of Protection: IP54
- Operating Temperature Range: -20~40°C (Derating above 30°C)
- Intelligent Integration: Integrated communication, storage cabinet
- Rated AC Power: 50-200kW
- Altitude: 5000m~10000m (derating)

**Power Conversion System**  
Single-stage three-level modularization  
Multi-branch input to reduce battery series and parallel connection
