

The Solomon Islands Renewable Energy Development Project (SIREDP) is supported with grant funding from the Asian Development Bank (ADB). The project will help Solomon Islands increase the penetration of renewable energy and reduce dependence on imported diesel fuel for ???

Renewable energy solutions, particularly solar, provide an opportunity for island nations to expand their economy and achieve climate goals. The integrated system promotes and accelerates the adoption of renewable energy in Calutcot and Gilutongan Islands while generating additional income from the sale of water, ice, dried fish, and seaweed.

A PATH TO PROSPERITY: RENEWABLE ENERGY FOR ISLANDS A Path to Prosperity: Renewable Energy for Islands presents a compilation of case studies from small island developing states (SIDS) and development partners. These demonstrate real-life project viability, highlight innovative solutions and showcase successful partnerships, which
