Made flexible and smart, it's perfect for your ???

I have two Argus 3 Pros with solar panels and what I noticed in the app the battery is always at 100% day, night does not matter. I would expect the battery % to fluctuate. It would also be interesting to see these fluctuations if I need to for example charge the cameras before heading off for a holiday or risk them running out of juice.

REOLINK ARGUS 3 PRO WITH SOLAR PANEL

3. Reolink Solar Panel needs to be working with no obstacles such as shades of trees, buildings, etc or its working efficiency would drop drastically. Argus 3 pro, Argus Pro, Argus Eco, Argus PT, Reolink Go PT, Reolink Go, Reolink Go Plus, Reolink GO PT Plus, Reolink Duo, Reolink Duo 4G, Reolink Duo 2, Reolink Duo 2 LTE. How to Use it

@user_812059413459103_812059413459103 I have the Argus 3 Pro connected to a solar panel and using the Reolink extension cable. The extension cable has rubber protections at both ends. but when you order the latest ones, there is an added comment from Reolink that the Argus 3 Pro camera is now 5MP and has the USB-C connection. I am assuming
