

Can RV solar installers deck out your rig?

RV solar installers can make decking out your rig in solar quick and easy. Find out how to find the best RV solar installer for your camper.

What does an RV solar installer do?

An RV solar installer can help you determine how much solar you actually need on your rig. An RV solar installer is an individual with expert knowledge of electricity and power systems for RVs. They typically thoroughly understand solar panels, charge controllers, batteries, inverters, and wiring.

Where are RV solar installers located?

However, this was long before RVing was trendy, so there were few RV solar installers. Fortunately, Justin's desire to enjoy off-grid living pushed him to start Panels Up Solar, LLC. Their shop is in Laurel, Mississippi, approximately 30 miles north of Hattiesburg.

Where can I get solar power for my RV?

AM Solar provides energy management and independent power solutions for RVs and other off-grid applications. They also offer RV solar panels and other equipment, including lithium batteries, inverter/chargers and monitoring in complete do-it-yourself solar kits. They also share a list of their solar dealers and installers for you to use.

Can I install solar panels on my RV?

We have even created solar panel kits to make installing a solar system on your RV easier and more affordable. Something to keep in mind with your solar installation for your RV is that solar installers will likely be drilling holes or driving screws into your roof and other parts of your rig.

How much does an RV solar installer cost?

When you hire an RV solar installer, you pay for their knowledge and experience. You can expect to pay them anywhere from \$100 to \$150 per hour. How long it takes depends on the size of the system and your rig. Many also charge a flat rate that is negotiated upfront. Sometimes the price will also change depending on who is procuring the products.
