

Solar energy is increasingly common on rooftops everywhere. Today, more than 2 million solar installations in the U.S. are generating electricity from the sun rather than from the local utility company. If you're thinking of greening your roof with solar panels, it's important to know the different types of solar panel companies, what they do and how they can impact your solar ???

The company specialises in the installation of solar photovoltaic systems for various sectors, including residential, commercial, industrial and large-scale solar farms, along with government organisations.

For example, most solar companies and vendors offer 25-year warranties for solar panel performance and factory defects. Warranties for other elements, such as battery and charge controllers, vary
