

Is risen energy storage a Tier 1 energy storage manufacturer?

Risen Energy Storage Recognized on BloombergNEF's Global Tier 1 List NINGBO, China, Oct. 25, 2024 /PRNewswire/-- On October 23, 2024, BloombergNEF (BNEF) released its Q4 2024 Global Tier 1 Energy Storage Manufacturers list, where Risen Energy Storage has once again been recognized as a Tier 1 global energy storage manufacturer.

Who is risen electric?

As an independent division of Risen Energy in the field of photovoltaic energy storage station development, Risen Electric focuses on ground centralized photovoltaic energy storage stations and distributed photovoltaic energy storage stations on industrial and commercial rooftops.

Who is risen energy?

Driving Global Innovation in Energy Storage With 18 years of expertise in lithium battery technology, Risen Energy has consistently focused on innovation to address the unique needs of diverse markets. The company offers comprehensive energy storage solutions, covering batteries, modules, PACK, PCS, BMS, EMS, and system integration.

What makes risen energy different from other energy storage companies?

Risen Energy also stood out in the field of energy storage. Leveraging its dual-energy storage industrialization platform and its professional research and development team, the Company has achieved full-stack self-development and closed-loop management of "3S" (BMS/PCS/EMS) technologies.

Is risen energy a green energy company?

Risen Energy has increased its clean energy usage to 31,320,210 kWh, up 9.4% year-on-year. It has also purchased 6,424,000 kWh of green electricity, and set a new low in the French carbon footprint certification at 376.5 kg eq CO₂/kWh -- thanks to the Company's HJT module product.

Why is risen energy a Tier 1 company?

This Tier 1 recognition not only underscores Risen Energy's technical excellence but also highlights the company's strong project execution and commitment to customer satisfaction. Through efficient project management and robust financial strength, Risen continues to expand its global footprint.
