

As a local roofing company focused on green building practices, we can install innovative solar systems to save you money on energy costs. Custom-Designed Skylights. Save 10% or up to \$1000 on your next roof and solar installation from the Mr. Roofing experts. It is an investment that will provide a life-time of savings.

Roofing contractors have always struggled to convert past clients into repeat customers. It's simply the nature of the industry; when you install products that last 20-30 years, that's a really long time to wait for a customer to purchase again.

Chicago incentives and rebates. Solar incentives and rebates can cut the cost of installing solar in Chicago by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some cities, counties, states and utility companies offer additional solar incentives, saving

One bit of good news is that most of these options can work with solar panels, which are lightweight and easily attachable to most types of roofs. Slate is the one major roofing material that is not recommended for use with solar, since slate is relatively brittle and can easily crack and cause roof leaks if solar panels are mounted .

ROOFING COMPANIES THAT INSTALL SOLAR
