

What is a roofit solar roof?

Roofit.solar solar roofs offer a neat, clean look and the solar cells are almost invisible from a distance. If you are renovating or about to change the roof of your house, you may want to save on material and labor costs. A Roofit.solar solar roof gives you both roofing material and powerful solar panels in one.

What is integrated solar roof?

Our award-winning integrated solar roof combines the traditional Nordic metal roof design with cutting-edge solar technology. Our solar roof is more than just a roof. It's a powerhouse designed to withstand any weather condition, including snow, ice, hail, and wind.

Who is roofit solar?

28. May, 2024 Roofit.Solar, an innovative solar roof company, has achieved a historic milestone by becoming the first Estonian business to receive the prestigious "Best of the Best" accolade at the renowned Red Dot Award 2024.

What are solar roof panels?

Our solar roofing panels are an expertly crafted combination of sleek black roof panels and high-tech photovoltaic cells. Powerful. Aesthetic. Integrated. Our solar roof panels are a 2-in-1 building-integrated photovoltaic (BIPV) solution for your roof.

Is a solar roof a good alternative to a conventional roof?

Solar roof is a great alternative to conventional roof and as source of energy. In the long run, the price of a solar roof is even cheaper than a regular roof because my roof generates electricity over time.

Are integrated solar roofs maintenance-free?

Integrated solar roofs are maintenance-free because they replace traditional roof covering, eliminating the need for maintenance like removing snow, ice or tree leaves that tend to accumulate under conventional solar panels. What's more, since integrated solar roofs don't have bolts, they don't require regular fastener inspections.

Andres Anijalg, Mitbegründer und CEO von Roofit.Solar . Roofit.Solar CEO Andres Anijalg beim Treffen mit Metigla bei der Präsentation der Solardächer . 5.
